

# SPINERGY

strength + comfort – weight = Spinergy

Spinergy is the leading wheel brand in the industry. Consumers around the world have discovered the many benefits of our ultra lightweight wheels. Spinergy's secret to superior strength, performance, and reliability is a combination of our patented PBO fiber spoke technology, our custom CNC machined hubs, and custom double-walled wheel rims. Spinergy's unique design results in low rotational weight which means you can go further and faster with less effort.

## Everyday Wheels

	<p><b>Light Extreme "LX" w/ FlexRim Handrims</b></p> <p>12 PBO fiber spokes 4mm spoke thickness 1.5 lbs/wheel* (n/i FlexRim) Everyday hub (slotted) Double-walled rim FlexRim optional</p>  		<p>"The LX wheels with the FlexRims are a great addition to your line of high quality products. The ergonomic friction surface under my thumb is reminiscent of the early days of racing when we added the rubberized surface to racing rims. It allows for easier energy transfer propelling, and a cooler surface for braking by turning your hand slightly for aluminum contact only. This photo shows me in a space that I could not navigate before the FlexRims – handy in tight places."</p> <p>- Marty Ball</p>
	<p><b>SPOX Everyday</b></p> <p>18 PBO fiber spokes 3mm spoke thickness 1.6 lbs/wheel* Everyday hub Double-walled rim</p>		<p>"Spinergy's are the only wheels I would ever use on my wheelchairs. The SPOX Everyday model provides me every bit of performance and reliability that I need, and fit best into my budget"</p> <p>-Laurel Lawson</p>

## Sport Wheels

	<p><b>Sport Light Extreme</b></p> <p>18 or 24 PBO fiber spokes 4mm spoke thickness Sport hub 1.7 lbs/wheel* Double-walled rim</p>		<p>"Spinergy wheels are zero maintenance and quiet. The SLX's are so stiff that every ounce of energy I use to push is transferred directly to the wheel, making it the lightest, strongest and most efficient wheel on the market, for any sport"</p> <p>-Ryan Baker</p>
	<p><b>SPOX Sport</b></p> <p>24 PBO fiber spokes 3mm spoke thickness Sport hub 1.7 lbs/wheel* Double-walled rim</p>		<p>"As a coach, the durability of the wheel is extremely important in the Collegiate Division playing against men. All my players use Spinergy for this reason. Spinergy is more reliable in high intensity games than any other wheel."</p> <p>-Patricia Cisneros</p>

•Weight = 24" wheel, no handrim/tire/axle
